Welcome to SAM,
DAU's Service Acquisition Mall. SAM is intended to help you get your job done by providing usable tools and templates to create your performance-based service acquisition requirements. The Mall consists of "Wings" and "Stores" that contain information related to categories of service. In addition, you will find Departments that are applicable across multiple areas, not just one SAM Wing or Store.
Move your mouse over the elements of the Mall Map to discover what is available in SAM. Enter a Wing by simply clicking on the appropriate space.

Automated Requirements Roadmap Tool (ARRT)
AUTOMATED REQUIREMENTS ROADMAP TOOL
Welcome to ARRT, SAM's Automated Requirements Roadmap Tool. ARRT is a software tool used to write performance-based requirements following the Requirements Roadmap process. Using ARRT, you can write/create a Performance Work Statement (PWS) and Quality Assurance Surveillance Plan (QASP). ARRT runs on Microsoft Office applications and generates MS Word documents for use in your acquisition.
ARRT is easy to use. It provides a step-by-step approach that asks the user questions to fill in documents. There is user guidance throughou
the tool. ARRT's embedded methodology produces better req

ARRT
1. To join the ARRT Community of Practice (COP):
Before you can download the ARRT you must join the ARRT COP and be approved by the ARRT Team.
After logging into your ACC account CLICK HERE to request membership in the ARRT COP. If you forgot your password to your ACC account FORGOT MY PASSWORD. If you forgot your user name email the Chief Editor at acc@dau.mil.
To get training and tutorials: CLICK HERE
2. Automated Requirements Roadmap Tool (ARRT) Over
Automated Requirements Roadmap Tool (ARRT) is a Better Buy job aid designed to help you improve the tradecraft in service acquisitions.
Main features of ARRT:
• Develop performance based service requirements following a proven process
• Create your draft Performance Work Statement (PWS), Quality Assurance Surveillance Plan (QASP), and Performance Requirements Summary (PRS)
• Utilizes standard templates for the PWS, QASP, and PRS
• Exported draft documents to MS Word.
• Automated MS Access Database file
As a member of the ARRT Community of Practice (COP) you can
• Download and use the ARRT job aid
• Contribute to topic areas related to the types of service you utilize
• Participate in discussion forums (Q&A)
• Post your issues and questions
• Get answers to your questions or issues
Terms of use:
ARRT is provided freely. You may download and use the tool as you deem necessary. By using the tool and/or joining the ARRT community you agree to not reverse engineer, re-develop, or otherwise create, sell, and/or distribute derived tool(s) from it. The source code and design of ARRT is protected under SBIR data rights Federal Acquisition Regulations clause 52.227-20.
Support:
Support and help for ARRT is provided through this COP website and the Service Acquisition Mall (http://sam.dau.mil/arrt). The ARRT team will monitor questions and issues logged here and will attempt to resolve user issues, however there is no express warranty or direct support guaranteed in the use of ARRT. If you have answers to questions posted on this site, feel free to address them as part of the COP.
System Requirements:
• ARRT works on Windows XP, Vista, or Window 7
• Microsoft Access 2007 or 2010 (Runtime edition or full edition)
• See the instructions on SAM for installing the free MS Access Runtime if you need it.

Tools
3. Download Instructions:
ARRT needs to be saved to a working location on your computer. To do this:
Click the "Download now" link below.
Internet Explorer users:
Click the "Save" button.
Navigate to the location on your computer where you want to save the file and click "Save".
Firefox users:
Select the "Save file" option and click the "OK" button.
in your Firefox browser, select "Downloads" in the "Tools" menu on the toolbar.
Right click on the ARRT file and select "Open Containing Folder".
Right click on the ARRT file and select "Cut".
Navigate to the location on your computer where you want to save the file.
Right click in the folder and select "Paste".
Download now: Click here to download the latest version of ARRT.
4. Running ARRT
Launch ARRT by double-clicking on the file name in Windows Explorer.
PLEASE NOTE: After launching ARRT, you will get a Security Notice. This is a general security protection that is built into Microsoft Access applications. Click the "Open" button to enter the tool.
Some users may get an additional message box titled "Action Failed" after launching ARRT.
To work through this, click the "Stop all Macros" button.
MS Office 2007 users:
Click the "Options" button in the Security Warning bar at the top.
Select "Enable this content" and then click the "OK" button.
MS Office 2010 users:
Click the "Enable Content" button in the Security Warning bar at the top.
For more information on getting starting with ARRT, visit the SAM website.
Getting involved:

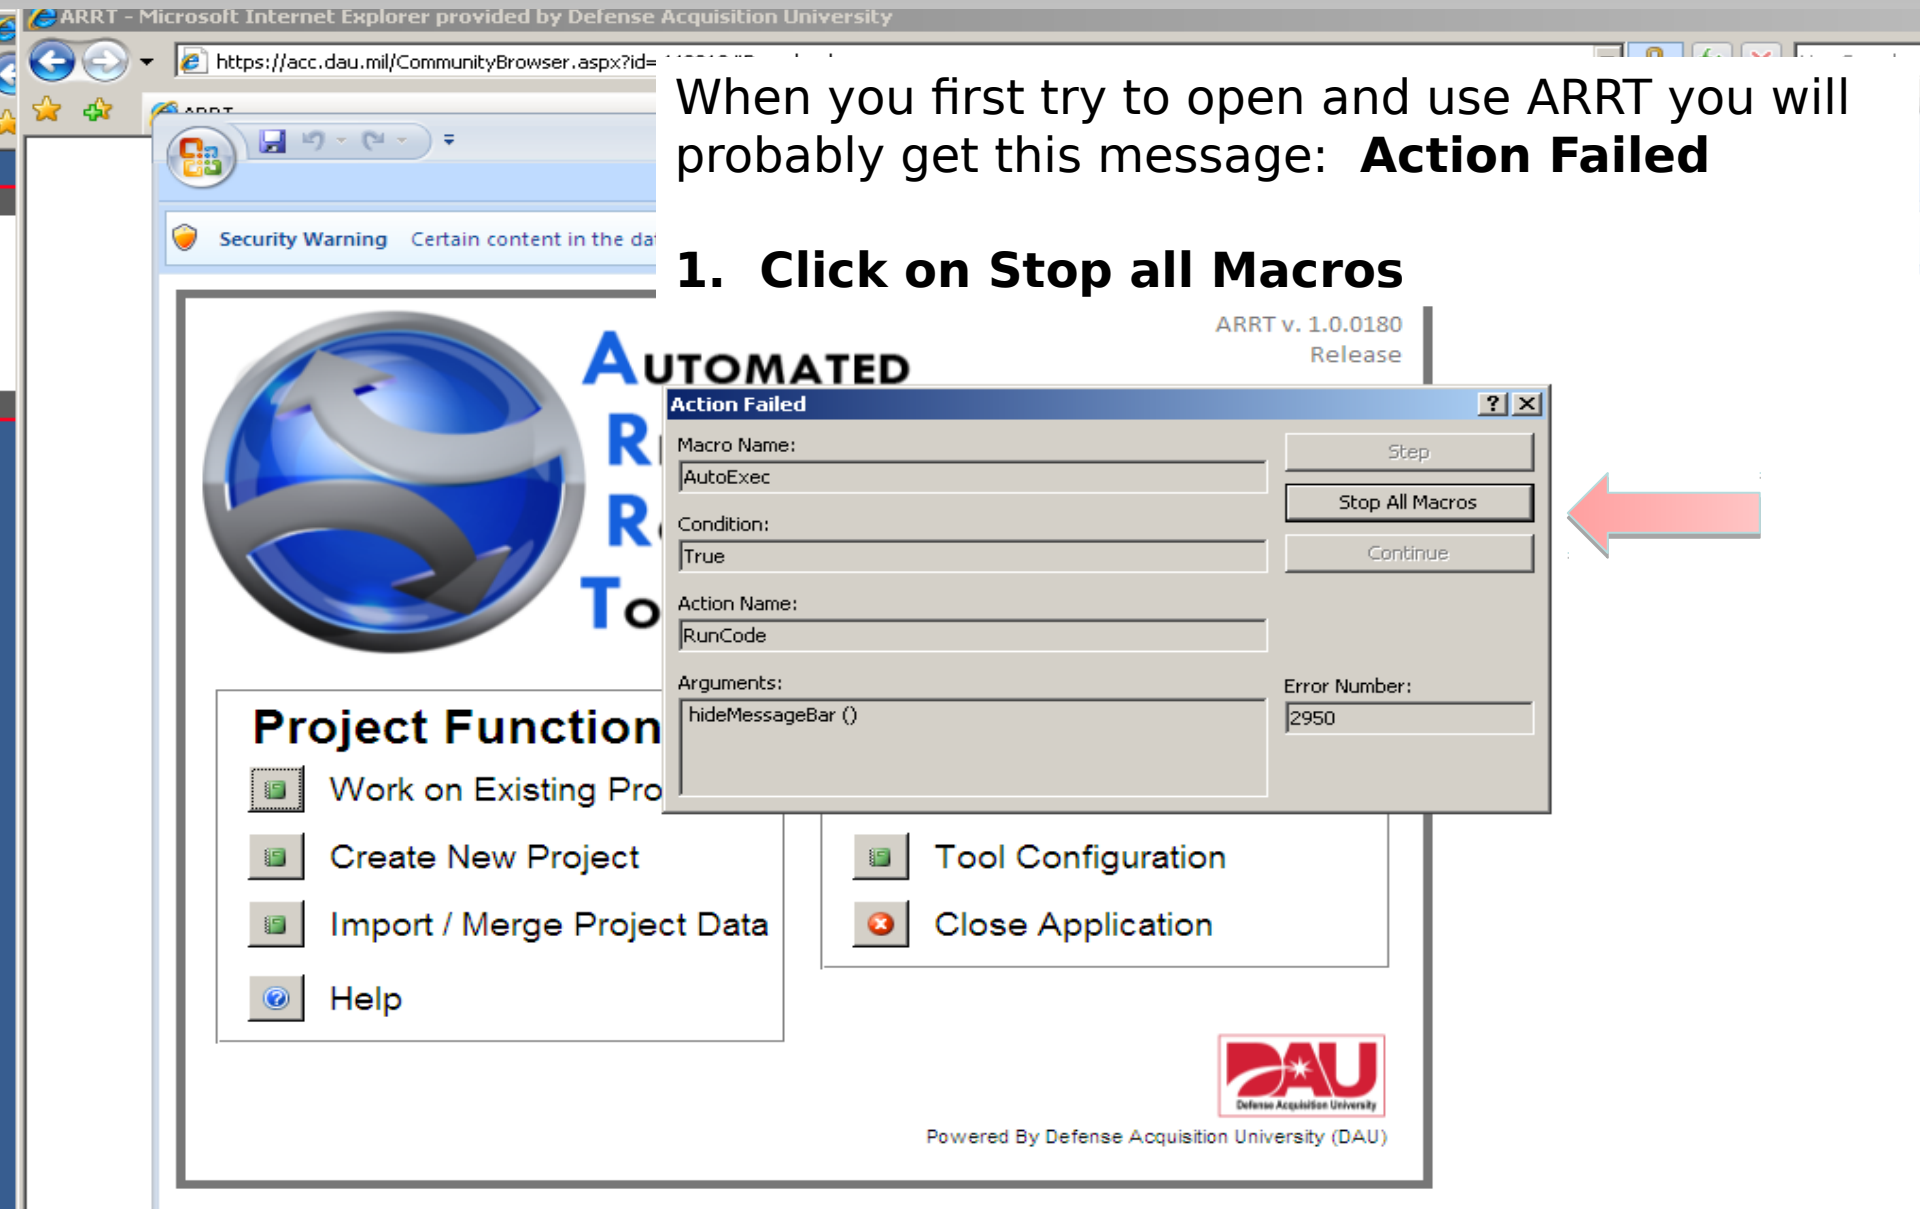
Click here to download the ARRT file

Stop all Macros

Most systems will disable file macros

When you first try to open and use ARRT you will probably get this message: **Action Failed**

1. Click on Stop all Macros



Open Security Options
